Skills

- **Web Technologies:**
  - HTML
  - CSS

- **Languages & Frameworks**
  - PHP
  - Laravel
  - React
  - JavaScript (JS)

- **Tools & Technologies**
  - Git
  - GitHub
  - Ubuntu

- **Database Management**
  - MySQL

Software Developer

Pioneering The Future - Noida
Oct 2023 - Present

- **API Development**: Designed, developed, and maintained RESTful APIs to support various application functionalities and ensure seamless integration between backend and frontend services.

- **Frontend Implementation**: Integrated and implemented APIs into the front-end applications using React, creating dynamic and responsive user interfaces.

- **Collaboration**: Collaborated with cross-functional teams to understand requirements, address technical challenges, and deliver high-quality solutions on time.

- **Tools & Practices**: Utilized version control with Git and GitHub, participated in code reviews, and followed best practices for software development and deployment.

Projects

- **APIs Development**:-Created APIs for admin, proctor, and invigilator roles.
  Technologies: Laravel, RESTful APIs

- **Proctor Panel**:-Developed a panel allowing proctors to monitor candidates' live streams during tests. View Project
  Technologies: Reactjs TypeScript

- **Admin 2.0**:-Enhanced the admin interface to manage proctors and invigilators with CRUD functionalities for multiple modules. View Project
  Technologies: Reactjs, MaterialUI

- **2FA Implementation for Superadmin**
  Implemented a two-factor authentication (2FA) system for superadmin roles to enhance security and access control within the application.
  Technologies: Laravel, Google Authenticator

Education & Learning

Bachelor of Science in Computer Science

DAV College – Muzaffarnagar, Uttar Pradesh
Graduated: 2020

Contributions

GitHub: https://github.com/kartik08-it
highlighting my coding skills and contributions.

Medium: https://medium.com/@kartiku03
Articles on Laravel, demonstrating my knowledge and insights.

LeetCode: https://leetcode.com/u/kartikgaur13/
showcasing problem-solving skills and algorithmic knowledge.
